RWA Legal & Accounting Services Plan

A comprehensive legal and accounting solution for U.S. companies in Mexico

U.S. companies with subsidiaries already incorporated or to be incorporated in Mexico can substantially optimize legal and accounting expenses through the **RWA Legal & Accounting Services Plan** offered by our firm. This plan consists of a cost-effective combination of professional services aimed at efficiently meeting the day-to-day legal and accounting needs of any Mexican subsidiary under a single monthly standard fee. The services covered under the **RWA Legal & Accounting Services Plan** are the following:

- **Specialized Legal Services.** Our firm provides all the legal support and advice that a Mexican subsidiary may require to close transactions and contracts with costumers, hire personnel, import, export or distribute products, participate in biddings, secure governmental permits and licenses or purchase assets. In general, we render all the appropriate legal advice and consulting necessary to isolate contingencies and boost the success of the subsidiary in Mexico.
- **Accounting and Tax Filing Services.** Our firm provides tax compliance services through our accounting department in order to fulfill all the tax obligations a Mexican subsidiary is subject to after incorporation. Our office conducts the timely filing of all monthly and annual tax returns, including any additional tax reports required by the statutes in effect.
- **Checkbook Keeping Services.** Our firm can open a bank account for the subsidiary in Mexico and manage, allocate and distribute the funds received in accordance with the written instructions of the client. With this service, the Mexican subsidiary can be financially controlled and monitored from the U.S. without the need of hiring administrative personnel in Mexico.
- **Registered Tax Address Services.** Our firm can provide a registered business and tax address for the Mexican subsidiary in order to allow our U.S. clients to save considerable expenses in office lease. Message center and use of meeting room are included with this service.

Mexico is the second most important market for U.S. products and services worldwide. Our firm **Resendiz Wong, Abogados, S.C.** (RWA) can help U.S. companies to create a business presence in Mexico almost overnight by incorporating a subsidiary there in just 3 days after 3 easy steps:

1. Execution by client of a power of attorney (PoA) prepared by our firm.
2. Notarization and legalization of the aforementioned PoA.
3. Submission of the PoA to us.

As simple as that RWA can have a U.S. company fully operating in the gateway to Latin America, making its products or services available to a market of more than one hundred million potential clients.

Thanks to the RWA Legal & Accounting Services Plan our U.S. clients are currently operating in Mexico efficiently and inexpensively. We urge you to contact us for further information on this plan.
